

## **A Study on Naming ‘The East Sea of Korea’ (2)**

### **Criticizing name problem of ‘Sea of Japan’**

**Sagong Jun**

(Professor, Korea University, Tokyo, Japan)

I've pointed out in “A Study of Naming ‘The East Sea of Korea’ 1” (July/2002) as follows.

In the 21<sup>st</sup> century, one of the works that human being should settle is to liquidate mistakes in the 20<sup>th</sup> century, especially the wreck of the colony that violated independence of another nation.

Moreover it should not be put off and we be corrected this without delay.

#### **Conclusion**

The problem to promote name notation of  
‘East Sea of Korea (East Sea)’ internationally

Now the most reasonable and righteous way to settle the name problem of ‘East Sea of Korea’ is to write name of ‘East Sea of Korea or East Sea’ independently. The name of place is handed down in history.

It is the name of sea located in east side of the Korean peninsula. It is written ‘East Sea of Korea’ in English.

‘Sea of Japan’ is meaning of the sea in Japan.

East Sea of Korea is not sea Japan possessions

Next, we should call attention to public opinion that trend of Japanese government that maintains the justification of name notation of ‘Sea of Japan’ must not be permitted.

With what ground does Japanese government emphasize its justification? As above – mentioned, the 21<sup>st</sup> century is a century which liquidates a shameful wreck of the colony of the 20<sup>th</sup> century. This trend is today’s international intention.

And the problem of name notation of ‘East Sea of Korea’ should settle of itself.
